Education

VIT Bhopal University   **Aug. 2021 – July 2025**
Bachelor of Science in Computer Science   *CGPA – 8.28*

Experience

Devfrend Web Solutions   **May. 2025 – Ongoing**
Junior Frontend Developer   *Remote*
- Developed and deployed dynamic client-facing web applications using React.js, HTML, CSS, and JavaScript, ensuring responsive design and optimal performance across devices.
- Integrated Supabase as a backend solution for real-time data handling, authentication, and database management, improving app scalability and reducing development time.
- Collaborated with clients to deliver custom frontend-backend solutions, tailoring user interfaces and logic to meet specific business goals and enhancing user engagement.

Oasis Infobyte   **Dec. 2023 – Jan. 2024**
Web Developer and Designer Intern   *Remote*
- Worked on 3 projects using frontend technologies like HTML , CSS and JS for better user interaction.
- Enhanced web page of restaurant with menu and table booking feature , a temperature convertor with all the 3 units of temperature such as Celsius, Kelvin, Fahrenheit convertion and my portfolio.
- Achieved accuracy in temperature conversions with real-time functionality using JavaScript.Improved user satisfaction through a user-friendly interface and accurate results.
- Explored ways to determine best outcomes using HTML, Javascript, and CSS.

Ethnus Codemithra   **Aug. 2023 – Dec. 2023**
Mernstack Fullstack Developer Intern   *Remote*
- Managed a 5-member team to revamp the hotel booking software, streamlining processes for room bookings and reservations.
- Elevated user authentication, security using JWT, majorly performing create, delete, read, update operations on the database.Achieved an increase in user engagement through improved UI/UX design.
- Optimized database queries, improving data retrieval and manipulation efficiency and the effort estimation distribution for front-end is 60-70% and for admin panel it is 30-40%
- Utilized Visual Studio Code for working environment in order to built the application using ReactJs, Custom Hooks, React Calender, JWT authentication and MongoDB.

Projects

Hotel Booking System(Group) | *HTML, CSS, Javascript, ReactJs, NodeJs, MongoDB*   **Nov. 2023**
- Designed and developed an interactive user interface using ReactJS, ensuring a seamless user experience for hotel booking.
- Implemented and managed a MongoDB database for efficient data storage and retrieval of booking details and user information.
- Utilized HTML, CSS, and JavaScript to create dynamic and responsive components while integrating secure authentication with JWT for user verification.

Virtual Piano | *C++, Vs Code*   **Jan. 2025**
- Created a GUI-based virtual piano with realistic sound playback using audio libraries.
- Added tune recording functionality with file handling for saving and playback.

Technical Skills

Languages: C++, Python, HTML/CSS, JavaScript, ReacJs, MongoDB, NodeJs
Technologies/Frameworks: GitHub, Vercel, Cloud Computing Fundamentals
Certifications: Certified AWS Cloud Practitioner

Leadership / Extracurricular

- Alpha MLSA at Microsoft, Sept. 2023.
- BitbyBit Codeblocks Event Management Team Lead, Oct. 2022
- Successfully Led Documentation Team for AdVITya Sports Fest'24
